Banner Advertising

Banner advertising is currently managed directly through the website. The main banner ad space is in the sidebar. It is a 300x250 banner.

This banner ad is currently sold on a monthly fixed ad basis at a rate of **$50 per month**.

Solo Ad Advertising

As an affiliate marketing blogger, I promote affiliate offers. I can promote your affiliate offer or product or service to my email list via a solo ad. Solo ad rates start at **$150 for 100 clicks**.

I will review your offer before sending it to my list. Then I will write a custom swipe to tailor your offer to my subscribers' interests in order to improve your results.

I do not guarantee signups or sales. That depends on the quality of your offer, landing pages, etc. Please make sure that you optimize your own content before ordering a solo ad.

Sponsored Blog Post

This is the ultimate option on my blog and is only available to you as the direct owner of the product or service that you are promoting.

This option cannot be used to promote your own affiliate link.

I will write a post about your product or service personally and promote it to my audience.

I will provide a honest review of your product or service and whenever possible include my affiliate links to your product or service which will be labeled as sponsored.

Please be aware that if your product or service does not perform well, I will reflect that in my review and a refund will not be provided.

I'm happy to notify you in advance if you want to know whether you will receive a positive or negative review.

Please review the posts here to get a better idea of the quality of my review posts.
